WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

Isolated Thunderstorms with Rain possible at times over the next 7 days, mainly near Tahoe

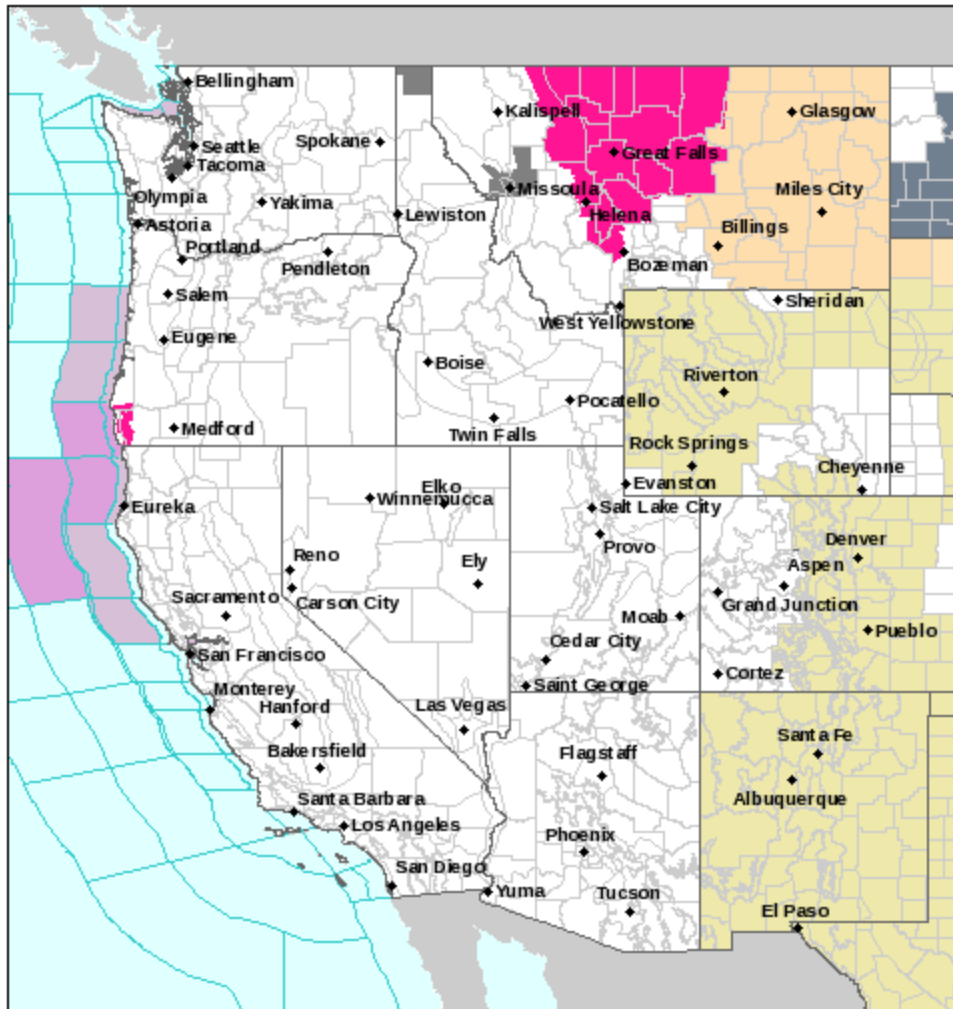

A dry northerly flow will be over the region through Friday as high pressure noses eastward over the region from off the Pacific. However, there will still be a small chance of daily afternoon and evening thunderstorms in the greater Tahoe area with only a few thunderstorms occurring if any. Warmer weather will prevail overall with the warmest inland areas 100-105 during the hottest days which is a bit above seasonal normals. A small and mostly dry trough will arrive over the region this weekend with cooler temperatures again and a small chance of isolated afternoon and evening thunderstorms over more of the region's northern and eastern mountain areas. The core of the trough will arrive later Monday with an apparent shift of isolated thunderstorm chances to near and east of the Cascade/Sierra crest looking possible. Poor air quality in canyons and drainages near active fires will continue or become somewhat worse, but may improve somewhat this weekend as more wind and instability help increase daily smoke dispersion. Winds will generally be quite light this week, but there may be some gusty, moderately strong northerly winds develop over the NW areas tonight and Wednesday. For the most part, the marine layer will probably be relatively shallow for the next few days before returning to somewhat more seasonable depths later this week.

SOUTHERN CALIFORNIA

Turning warmer during the second half of the week

Winds should be much weaker today. A very large ridge over the eastern Pacific is expected to draw closer to the area which will cause temperatures to climb to near normal by tomorrow or Friday. Some monsoonal moisture may be drawn northward into the Sierras and the Inyo National Forest. This would result in isolated storms developing today and again over the weekend. Long range models indicate temperatures may climb to slightly above normal readings by the weekend or early next week.

Cal OES LAW ENFORCEMENT MISSIONS

New/Ongoing/Closed Cal OES Law Missions

- **2017-LAW-37928, 08/08/17**, At approximately 1600 hours, Cal OES Law Duty Officer (LDO) made contact with the California Air National Guard on behalf of the Fresno County Sheriff's Office. The contact regarded a recovery mission which has been on-going for approximately one week. Two Individuals were involved in a fatal vehicle accident on HWY 180 approximately 500' into a river gorge on the Upper Kings River. The rugged terrain and high waters are hindering recovery efforts and therefore consultation from the National Guard was being sought for potential assistance. The National Guard and their subject matter experts will be meeting in Fresno and then performing a reconnaissance flight to the site for evaluation. **Update: 08/09/17, 2100 hours**, The National Guard reported that they were unable to satisfactorily evaluate the recovery mission with the Blackhawk Helicopter they arrived in and will re-engage on 08/10/17 with a Chinook Helicopter. **Update: 08/10/17, 1400 hours**, CNG's consultation continuing. **Update: 08/11/17, 1001 hours**, FCSO advising CNG evaluation completed and are now requesting SME evaluation from Kern and Tulare County Sheriff's Swift Water Rescue Teams. Cal OES Law Enforcement Branch (LEB) coordinating the response. **Update: 08/11/17, 1707 hours**, Both Kern and Tulare County Sheriff's accepted the mission and will meet with FCSO on 8/12/2017 at 1000 hours. **Update: 08/12/17, 1449 hours**, FCSO advising Kern and Tulare County Sheriff's SME evaluation has been completed and will be suspending the mission due to safety issues until water flows have decreased. **Mission Ongoing.**

Cal OES MISSION TASKING
